Just fifteen years ago, June 1, 1894, the public library and memorial build-ing was opened to the public and James E. Kennedy became the custodian. Mr. Kennedy was employed as a carpenter in the construction of the building by Robert Sherman, the builder. While there were many applicants for the custodianship, the trustees offered the place to Mr. Kennedy unsolicited.

To meet the expenditures called for by their estimates, a tax of 10 mills on the last City list will be required, said list being \$12,598,247.

In addition to the above estimated expenses for ordinary purposes of the government, the Committee on Finance have been requested by petition, committee reports, etc. to bring before the next annual meeting for its action estimates of the cost of the following improvements and expenditures prayed for, to wit:

Celebration of the 250th An-niversary of the Town, 125th Anniversary of the incorporation of the City. Salary and expenses of Milk ablic comfort accommoda-For macadamising Sachem street For widening West Main street For Cliff street improvement For new steam fire engine.

The sum of these estimates is equal to about 14 mills on the grand list. The Committee recommend that the warning for the next annual City Meeting include the last named estimates and a call for action thereon.

At a City Meeting held March 26, 1909 the Court of Common Council was authorized to appropriate from the City Treasury such an amount not exceeding 20,000 as may be necessary to pay the expenses for crecting a new dam and appurtenances at Mesdow Brook and of acquiring lands, rights and other property necessary for conservation of the water supply, but the resolution adopted at said meeting did not provide the method of raising the sums necessary for such expenditure.

Your Committee recommend that insamuch as said appropriation is made for a permanent improvement and addition to the water supply, the expense thereof should not be included in the ordinary expenses of the current year, and your Committee recommend that the warning for the next annual City Meeting shall include a proposition authorizing the borrowing of such funds upon the notes of the City payable in four equal annual installments and that the same, be Hquidated from the receipts of the water department.

Under an act of the General Assembly approved June II, 1907, the County Commissioners, the Mayor of the City and the Selectmen of the Town of Norwich were constituted a Board for the creation of the receipts of the sum as might be necessary for the erection of such addition and it is desirable that the joint obligation so created should be replaced by separate obligations for the proportion of the expense which each interest is to bear. The City's proportion thereof has been determined as provided in the Act to be the sum of \$10,000. \$15,100.00

tion thereof has been determined as provided in the Act to be the sum of \$10,000.

Your Committee therefore recommend that there shall be included it the warning of the next annual City Meeting a proposition to authorize the execution and delivery of the obligation of the City for \$10,000 for its proportion of the expense of Court House addition upon the resirement of the loin obligation now cutstanding.

Your Committee further recommend that there he included in the warning of the next annual City Meeting a proposition to authorize the sale of the fire station property situate on West Main street and of the fire station property situate on Houwell avenue, the same being no longer required for the purposes of the fire department and that the moneys realized therefrom he appropriated for the fitting up of the Thantesville fire station, to provide for the installation of a steam fire engine and obsenical engine for the protection of that section of the City in accordance with the recommendations of the Committee further recommend the adoption by the Court of Commot Cauncil of the following resolution:
